

AMENITY & COMMON AREA RESERVATION REQUEST

What this form is: a request from a resident to reserve a building amenity or common area.

What it's for: it gives the management office everything needed to confirm availability and any applicable fees or house rules.

Why it's needed: amenities are shared and often limited — submit at least 5 business days before the requested date. Reservations are not confirmed until you receive written approval from the management office; fees, deposits, and house rules for each amenity are set by the Board.
