CERTIFICATE OF INSURANCE (COI) TRACKING FORM

What this form is: a tracking sheet the property management office completes for every vendor or contractor performing work at a Camelot-managed property.

What it's for: it confirms a compliant Certificate of Insurance is on file — naming Camelot as additional insured, with adequate general liability and workers' compensation coverage — before that vendor is allowed on site.

Why it's needed: an uninsured or under-insured vendor exposes the building and Camelot to uncovered liability if an accident occurs. No vendor may begin work until this form is complete and approved.

VENDOR & COVERAGE DETAILS

Vendor / Contractor Name	
Type of Work	
Property / Building	
COI Received Date	
Policy Expiration Date	
General Liability Limits	
Camelot Listed as Additional Insured (Y/N)	
Workers' Compensation on File (Y/N)	
Auto Liability on File (Y/N)
