

UNIT ALTERATION AGREEMENT

What this document is: a short-form agreement between Camelot/the Board and a Unit Holder undertaking a renovation or alteration.

What it's for: it sets the ground rules — insurance, hours, fees, and liability — before alteration work begins.

Why it's needed: alterations are one of the top sources of building disputes and property damage claims; this agreement protects both the Unit Holder and the Building. Replace every field before circulating or executing.
