W-9 REQUEST COVER SHEET

What this form is: a short tracking sheet for requesting a completed IRS Form W-9 from a vendor, contractor, or service provider.

What it's for: it records when the W-9 was requested and received so accounting has the payee's tax ID on file before issuing payment.

Why it's needed: federal law requires a W-9 on file before payment or 1099 filing; without one, Camelot may be required to apply backup withholding.

REQUEST TRACKING

Vendor / Payee Name	
Requested By	
Date Requested	
Date Received	
TIN / EIN on File (Y/N)	
Backup Withholding Applicable (Y/N)
